Subject: After-Action Report: Lane Plating CAG Steering Meeting: 11/18/19

Good morning,

The following is the summary from last night's Lane Plating CAG Steering Meeting. A lot of progress was made, including a date for our next community meeting and planning meetings. The meeting began at 6:09 p.m. at Councilman Atkin's offices with attendance by TCEQ, City of Dallas Environmental Office, and six CAG citizen members. The following are take-aways from the meeting:

- * The CAG discussed drafting their outreach plan which includes: radio advertisement (KNON/KERA/EcoLatino), creating signs and flyers, email lists, QR Codes for public notices, and City Councilperson message amplification. The CAG will vote upon a final plan at the next meeting on Dec. 9.
- * EPA briefed the Phase I sampling results. The CAG asked questions and gave input regarding contaminants of concern and suggestions for the presentation of the results at the community meeting.
- * After the Phase I Sampling result briefing, the CAG requested the following be added to Phase II sampling that will begin in January, 2020: additional sampling in the neighborhood across the street from the site; investigate the road work being conducted by the City of Dallas near the site to ensure no contamination is spread; ensure there is no groundwater seepage to spread off-site contamination.
- * The following was agreed upon for the meeting schedule:
 - * Jan. 6, 202: EPA will present the draft presentation for Phase I Sampling Results for the community meeting.
 - * January 23, 2020: pre-meeting and walkthrough with facilitator Michael Lythcott for the community meeting
 - * January 30, 2020: community meeting with the Lane Plating CAG.

If you have further questions, or need clarification, please don't hesitate to ask.

Thanks,

-Ed-
